WELCOME

TO BAD WIZARD GAMES

★ DARK STORIES. BOLD CHOICES. UNFORGETTABLE EXPERIENCES. ★

Thank you for opening this catalog and for showing interest in Bad Wizard Games. We're an independent studio built on passion, mischief, and a deep love for games that tell stories worth remembering.

We believe the table is more than a place to play—it's a place to connect, to challenge ideas, and to explore the dark, the dangerous, and the absurd in ways that no other medium can.

★ WHY BAD WIZARD EXISTS

We're here for the outsiders, the misfits, the night owls, and the rule breakers. Modern life is full of rules and expectations. Our games are an escape hatch—places where bold ideas live, consequences matter, and players write the story together. We create games with attitude, games with teeth, and games that aren't afraid to go where others won't.

★ WHY GAMES MATTER

Games bring people together in a way few things can. They build empathy, spark imagination, and create memories that last a lifetime. They teach us to think, to strategize, to negotiate, to take risks, and sometimes, to laugh at ourselves when the plan goes spectacularly wrong. Games are culture. Games are connection. Games are fun.

★ STORYTELLING THROUGH TABLETOP GAMES

Every Bad Wizard game is a story you help tell. Our worlds are rich with character, conflict, and atmosphere. Whether you're a street boss climbing the ranks, a vampire evading extinction, or a doctor fighting for what's right in a hostile world, you're not just playing a game—you're living a story together.

★ HUMOR. HORROR. SATIRE. STRATEGY.

We blend genres and flavors to create unforgettable experiences. Our games may make you laugh, make your skin crawl, make you think, or make you feel uncomfortably seen. We use humor to highlight the absurd, horror to explore fear and survival, satire to challenge the powerful, and strategy to reward cunning minds. Together, they create something unique—just like our players.

★ THE FUTURE OF BAD WIZARD GAMES

Our journey is just beginning. Here's what lies ahead:

- ★ Expand our universe with bold new games and original IP.
- ★ Partner with world-class artists and storytellers.
- ★ Grow our community of passionate players and playtesters.
- ★ Bring our games to tables around the world.
- ★ Create experiences across digital, RPGs, novels, and more.

We're building a legacy of games that stand out and stand the test of time. We want Bad Wizard Games to be known for taking risks, pushing boundaries, and delivering experiences players talk about long after the game is over.

Thank you for believing in bold ideas and for being a part of our journey. The adventure is just beginning.

FOUNDER & LEAD GAME DESIGNER

★ ABOUT THE FOUNDER ★

Jeffrey A. Young is the Founder and Lead Game Designer of Bad Wizard Games.

A lifelong gamer, storyteller, and strategist, Jeffrey has spent over a decade designing worlds and systems that challenge players to think, feel, and laugh in equal measure. His background in data science, artificial intelligence, and problem solving informs his design philosophy: meaningful choices, dynamic systems, and experiences built for replayability.

Jeffrey's passion lies in blending narrative and mechanics to create games with attitude and heart. When he's not designing games, he's developing concepts, sketching new worlds, and playtesting with his team of misfits and masterminds.

“WE DON'T MAKE GAMES TO BE SAFE.
WE MAKE THEM TO BE REMEMBERED.”

— JEFFREY A. YOUNG

THE BAD WIZARD PROMISE

- ★ Original stories. Never recycled. Never boring.
- ★ Quality components. Because details matter.
- ★ Honest gameplay. Fun first. Always.
- ★ Community driven. You shape our future.
- ★ Bold themes. For players who crave more.

— ABOUT — BAD WIZARD — GAMES —

— DARK STORIES. BOLD CHOICES. UNFORGETTABLE EXPERIENCES. —

Bad Wizard Games is an independent tabletop game studio creating bold, original board games that explore the darker, weirder, and more human side of life. We blend sharp humor, biting satire, intense horror, and deep strategy to craft experiences that stay with you long after the last die is rolled.

We don't make games to be safe. We make them to be remembered.

★ STUDIO PHILOSOPHY

We believe games are modern myths. They reflect who we are, who we were, and who we might become. We aren't afraid of dark themes or complex ideas. We explore them—because the best stories live in the shadows.

Our goal is to create games with attitude, soul, and staying power. Games that spark conversation, challenge perspective, and bring people together around the table.

★ OUR DESIGN PROCESS

1. CONCEPT & THEME

We start with a powerful theme and the story we want to tell.

2. PROTOTYPE & BUILD

Ideas hit the table. We prototype fast, fail fast, and build better.

3. PLAYTEST & REFINE

We test relentlessly—with our team, with players, and with our community.

4. POLISH & BALANCE

We refine every detail until the experience sings.

5. PRODUCE & DELIVER

We partner with trusted makers to deliver quality you can feel.

★ ARTWORK PHILOSOPHY

Art is the first handshake with your imagination. We partner with talented, passionate artists who understand our worlds and bring them to life with grit, style, and emotion.

We aim for art that is iconic, evocative, and timeless—art that doesn't just decorate the game, but becomes part of the story.

WE ARE BAD WIZARD GAMES.

We tell the stories others won't.
We build the worlds you want to explore.
We make games you'll never forget.

★ BOLD. TWISTED.

OUR CORE BELIEFS

STORIES FIRST

Every game begins with a powerful idea. Story drives everything we do.

PLAYERS ALWAYS

We design for the table, not the trend. Our games respect your time and intelligence.

BOLD IS BETTER

We embrace bold themes and tough questions. Games should challenge and provoke.

MEANINGFUL CHOICES

Our games are built on consequences, not just mechanics. Your choices should matter and change the world.

MEMORABLE EXPERIENCES

We want laughter, tension, betrayal, and triumph. We want emotions that last.

WE DESIGN FOR PLAYERS WHO CRAVE MORE.

More theme. More strategy. More heart. Our games aren't for everyone—and that's intentional. If you're looking for something different, something daring, something unforgettable... you're in the right place.

★ COMMUNITY INVOLVEMENT

Our community is the heart of Bad Wizard Games. We listen, collaborate, and grow together. Through playtests, feedback, and events, our players shape our games and our future.

We support local game stores, conventions, indie creators, and the next generation of game designers. We're all in this together.

★ INDEPENDENT PUBLISHING

We are proudly independent. That means we answer to our values—not shareholders. It means we take risks on the games we believe in.

It means creative freedom, honest decisions, and a direct connection with you.

Indie isn't easy—but it's worth it.

★ ORIGINAL IP CREATION

Every world we build is our own. From the streets of Cotton to the corporate boardrooms and haunted hollow places beyond, our IP is original, unapologetic, and built to last.

We create universes with depth, characters with motive, and stories that can grow across games, books, comics, and beyond. This is only the beginning.

UNFORGETTABLE. ★

THANK YOU

For believing in bold ideas.
For supporting indie creators.
For being part of our story.
Now, let's play.

DEVELOPMENT

—★ FROM SPARK OF AN IDEA TO

Every game we create follows a relentless process of imagination, iteration, and integrity.

We forge them.

- ★ Take notes and share your experiences.
- ★ Be respectful, thoughtful, and constructive.

- ★ Share what you love, what confuses you, and what feels unbalanced or broken.
- ★ Suggest improvements and new ideas.
- ★ Rate key areas: fun, clarity, balance, theme, and replayability.
- ★ Participate in follow-up discussions when needed.

Our prototypes are sacred. What you see, play, and learn is not for public discussion.

- ★ Sign and honor the NDA.
- ★ Do not share components, files, or images.
- ★ Do not discuss the game online or offline outside the program.
- ★ Respect the hard work of our team and the trust we place in you.

Protecting our ideas protects the future of the games—and the community we're building.

DESIGNER COMMENTARY

Cult Leader is a game about choices and consequences. It's easy to gain followers—but keeping them? That's where the real challenge begins.

We wanted to create a game that's both strategic and wildly thematic, with just enough dark humor to keep you smiling while you stab your friends in the back.

Each faction offers a unique path, each game tells a different story, and every decision shapes your legacy.

We can't wait to see what kind of leader you become.

- Save your progress and continue your legend

LORE

After Earth's resources were exhausted, humanity looked to the stars. The United Colonies Initiative launched the Pixel Program—an effort to build self-sustaining outposts on distant worlds. But the universe is harsh, and you are not alone. Ancient ruins, rival factions, harsh environments, and unknown forces stand in your way.

Work together. Adapt. Survive. Thrive.
The future is built in pixels.

BUILD MORE THAN A COLONY.
BUILD A LEGACY.

HUMANITY'S NEXT CHAPTER

The stars are calling. You are the architects of a new frontier.

In Pixel Cooperative, your team builds thriving colonies on distant worlds, manages precious resources, researches advanced technologies, and defends against the dangers of the unknown. Work together, plan your strategy, and secure humanity's future—one district at a time.
